

CURRICULUM VITAE

SIRINUN BORIPUNTAKUL, Ph.D., P.T.

PERSONAL INFORMATION

Address: Department of Physical Therapy, Faculty of Associated Medical Sciences, Chiang Mai University, Chiang Mai, 50200, Thailand
Telephone: 66-5394-9250
Fax: 66-5394-6042
E-mail: sirinun.b@cmu.ac.th

EDUCATION

2008-2013	Ph.D. (Biomedical Sciences), Chiang Mai University, Thailand
2004-2006	M.S. (Movement and Exercise Sciences), Chiang Mai University, Thailand
2000-2003	B.S. (Physical Therapy), Chiang Mai University, Thailand

POSITIONS

2023-present	Deputy head of Physical Therapy (Academic Services), Faculty of Associated Medical Sciences, Chiang Mai University, Thailand
2021-present	Committee of graduate course (Physical Therapy), Faculty of Associated Medical Sciences, Chiang Mai University, Thailand
2019-present	Head of Geriatric Physical Therapy, Department of Physical Therapy Faculty of Associated Medical Sciences, Chiang Mai University, Thailand
2019-present	Assistant Professor, Department of Physical Therapy, Faculty of Associated Medical Sciences, Chiang Mai University, Thailand
2017-present	Committee of postgraduate course (Master of Physical Therapy), Faculty of Associated Medical Sciences, Chiang Mai University, Thailand
2013-present	Instructor at the Department of Physical Therapy, Faculty of Associated Medical Sciences, Chiang Mai University, Thailand

HONORS AND AWARDS

- 2008-2012 Office of the Higher Education Commission
 2003 First Class Honor Degree, Chiang Mai University, Thailand

FUNDING

- 2024-2025 Co-investigator, Skill development for frailty assessment and outcomes of a multicomponent exercise training program in village health volunteers, Doi Lo Subdistrict, Chiang Mai Province. Matching Fund, Associated Medical Sciences, Chiang Mai University
- 2023-2026 Co-investigator, Effects of low intensity exercise on cognitive function, blood biomarkers, and metabolomic alterations of older adults at risk of developing dementia. National Research Council of Thailand (NRCT)
- 2023-2024 Co-investigator, Prevalence and factors associated with frailty and sarcopenia in diabetic patients in Pahsak Subdistrict, Muang District, Lamphun. Challenge Fund, Associated Medical Sciences, Chiang Mai University
- 2022-2023 Co-investigator, Impairment of scapular control and related factors in individuals with Chronic Obstructive Pulmonary Disease (COPD). Associated Medical Sciences, Chiang Mai University
- 2022-2023 Co-investigator, The validity and reliability of trunk control measurement scale (TCMS) in children with Cerebral Palsy- Thai version. Associated Medical Sciences, Chiang Mai University
- 2022-2023 Co-investigator, The influence of chronic neck pain on gait asymmetry and gait variability in older adults. Associated Medical Sciences, Chiang Mai University
- 2021-2022 Co-investigator, Development of a home-based exergame system to promote physical and cognitive health of older adults using computer vision. Chiang Mai University
- 2021-2022 Co-investigator, A randomized controlled trial investigating the effects of combined physical-cognitive exercise and dietary intervention on cognitive performance and changes in blood biomarkers of postmenopausal obese women. Chiang Mai University
- 2021-2022 Co-investigator, Development of the smart system for tracking an instantaneous speed in an individual sprint athlete. Chiang Mai University
- 2021-2022 Co-investigator, Validity of the video-based system for measuring gait speed in older adults using 10-Meter Walk Test and Timed Up and Go Test. College of Arts, Media and Technology, Chiang Mai University
- 2020-2021 Co-investigator, Effectiveness of multicomponent physical activity and cognitive training in frail and sarcopenia in community-dwelling Karen aging in Galyani Vadhana District, Chiang Mai: Randomized clinical trial. Associated Medical Sciences, Chiang Mai University

-
- 2020-2021 Co-investigator, Prevalence and factors associated with frailty in community-dwelling Karen aging in Galyani Vadhana District, Chiang Mai. Associated Medical Sciences, Chiang Mai University
- 2020-2021 Co-investigator, The effects of combined physical-cognitive exercise with dietary intervention on cognitive function and underlying mechanism of overweight and obese postmenopausal women. Associated Medical Sciences, Chiang Mai University
- 2020-2021 Co-investigator, The effect of trunk muscle coordinate exercise on the trunk muscle activation, postural stability and gross motor function in children with cerebral palsy. Associated Medical Sciences, Chiang Mai University
- 2019-2020 Co-investigator, The validity and reliability of the gait speed detection program for gait speed assessment in healthy older adults. College of Arts, Media and Technology, Chiang Mai University
- 2018-2019 PI, A smartphone-based assessment of free-living gait in young adults and older adults with and without a history of falls. Associated Medical Sciences, Chiang Mai University
- 2018-2020 PI, Effect of transitional gait speed and cognitive load on gait characteristics in individuals with Mild Cognitive Impairment. Thailand Research Fund (TRF)
- 2018-2019 Co-investigator, Effectiveness of falls prevention training program in Thai elderly. National Research Council of Thailand (NRCT)
- 2017-2018 Co-investigator, Comparison of range of motion and electromyography in adult riders. Associated Medical Sciences, Chiang Mai University
- 2017-2018 Co-investigator, The relationship of arm curl test and strength and endurance tests with hand-held dynamometer in older adults. Associated Medical Sciences, Chiang Mai University
- 2016-2017 Co-investigator, Comparisons of balance and gait characteristics of elderly while walking on shock absorbing flooring and vinyl flooring. The Siam Cement Public Company Limited (SCG)-Innovation and Technology Project
- 2016-2017 Co-investigator, Validity of a smartphone-based accelerometer for gait assessment in older adults. Associated Medical Sciences, Chiang Mai University
- 2016-2017 Co-investigator, The reliability of balance assessment by using swaymeter in normal and Down Syndrome children age between 7-12 years old. Associated Medical Sciences, Chiang Mai University
- 2015-2016 PI, Short-term effect of cryotherapy on balance, proprioception, and postural sway in Thai elderly people. Associated Medical Sciences, Chiang Mai University
- 2010-2011 Co-investigator, Development and efficacy of cognitive training program for individuals with Mild Cognitive Impairment: Evidence from biomarker analysis in brain by Magnetic Resonance Spectroscopy and cognitive skills. BioMedical Engineering Center, Chiang Mai University

RESEARCH INTERESTS

- Balance and Gait
- Fall in Older People
- Motor Impairment in Individuals with Cognitive Impairment

SERVICE TO THE FIELD

Manuscript Reviewer:

- PLoS One
- Brain and Behavior
- Disability and Rehabilitation
- BioMed Research International
- Archives of Allied Health Sciences
- Journal of Associated Medical Sciences
- Thai Journal of Physical Therapy

THESIS ADVISOR AND CO-ADVISOR

- Advisor, Ms. Thanpidcha Poosri. Master of Science (Physical Therapy).
Comparison of smoothness of gait under challenging gait conditions between older adults with and without Mild Cognitive Impairment.
- Advisor, Mr. Surinthorn Maiarin. Master of Sciences (Movement and Exercise Sciences).
Comparison of gait characteristics during gait transitional speed between older adults with and without Mild Cognitive Impairment
- Co-advisor, Ms. Sirintip Kumfu. Doctor of Philosophy (Biomedical Sciences).
Effects of home-based, low-intensity exercise on cognitive function of individuals with Mild Cognitive Impairment.
- Co-advisor, Ms. Puntarik Kaewtep. Doctor of Philosophy (Biomedical Sciences).
Effects of combined physical-cognitive exercise and dietary intervention on cognitive performance and associated mechanisms of obese postmenopausal women.

MEMBERSHIPS

- Asian Falls Network
- The Physical Therapy Association Thailand

TRAINING

July 2012-January 2013 Neuroscience Research Australia, Sydney, Australia

PUBLICATIONS

International Publications:

Conference Proceedings and Oral Presentations

1. Boripuntakul S, Kamnardsiri T. Concurrent validity of a video-based system for assessment of gait speed adaptation in healthy older adults. The scientific subcommittee of world physiotherapy-AWP regional congress 2022 (Virtual international conference), 18-20 June 2022.
2. Kamnardsiri T, Khuwuthyakorn P, Boripuntakul S. The development of a gait speed detection system for older adults using video-based processing. 4th international conference on biomedical imaging, signal processing (ICBSP 2019), 17-19 October 2019, Nagoya, Japan.
3. Boripuntakul S, Panjaroen K, Kormkaew K, Yawisit P, Kamnardsiri T. Validity of a speed detection system for measuring gait speed in community-dwelling older adults. 3rd international conference on computational biology and bioinformatics (ICCB), 17-19 October 2019, Nagoya, Japan.
4. Kamnardsiri T, Kormkaew K, Boripuntakul S. The reliability of the video-based speed detection system for gait speed measurement in healthy older adults, on the 1st national conference on Thai society of biomechanics in sports (TSBS2019), 2 August 2019, Krabi, Thailand.
5. Boripuntakul S, Kamnardsiri T, Saksrisataporn K. Framework of an interactive game-based balance training system for improving standing balance using the Kinect sensor. 11th European conference games based learning (ECGBL) 2017, FH Joanneum University of Applied Science, Graz, Austria.
6. Boripuntakul S, Lord SR, Delbaere K. Mild Cognitive Impairment is a predictor of physical decline in older people. Graduate research conference 2013, Khon Kaen University, Thailand.

PATENT AND COPYRIGHT

- **Patent Number 23324** (13 March 2024):
Signal Integration Seat Cushion Set
- **Copyright Number 419402** (19 July 2022):
Smart system program for monitoring an instantaneous speed in sprinter.
- **Patent Number 16706** (31 August 2020):
External Audiovisual Synchronization Box.
